

Nannies in Miami, Miami Babysitters

Need reliable adult supervision for your little ones? Best Miami Concierges will arrange for you a certified childcare provider for your children. Instead of worrying because you left your kids with your next door neighbor, our concierges will be able to provide a peace of mind for our clients.

Best Miami Concierges believe in providing the highest quality childcare possible. Each of our Nannies goes through an extensive screening process before they come to interview in your home. We will not refer a Nanny to your home that we would not entrust in our own. Each Nanny fills out our extensive application. From there, we verify their employment references, and conduct a thorough national criminal history check which includes a Sexual Predator/Offender list check. An application verification report is done as well as a verification to check their driving records. Our prices are competitive and reasonable. We are confident that you will not get better service anywhere else. Call us now!!! We guarantee they will have an enjoyable time.
